

Best Start South East Region Planning and Implementation Objectives 2010-2011

“Now What?” and “Where to Focus Next.”

Continued focus of Best Start Networks is collaborative approaches to service and system integration.

- Enhanced 18-Month Well-Baby Visits
- Continued support to the implementation of the Early Learning Program/Full Day Kindergarten
 - Continued dialogue and collaborative planning between school boards, municipalities and service providers serving the early years.
 - Trouble-shooting and resolution of ELP implementation challenges to achieve quality service to children within the early years
 - Re-focus of...
 - child care,
 - community hub concepts,
 - service delivery within school settings,
 - student support leadership and
 - service providers serving the early years
 - Contribution to special needs supports and services/protocol development
 - Collaborative approach to infrastructure needs (e.g. space) and shared services, etc.
 - Collaborative approach to evidence based planning and service implementation – involvement of DACs
- Continued examination/assessment
 - Accomplishments to date
 - Identification of duplication and gaps
 - Structure and relationship with planning table – Ready for rapid change
- Increased clarity surrounding decision making across service sectors - Who is responsible for what? How to efficiently make decisions and take action, etc.
- Relationship development and clarification relevant to Children’s Services Planning bodies and other community service planning initiatives – i.e. Ministry of Health Promotion and Sport – “Healthy Communities Partnerships”
- Network specific priorities
