Every Kid In Our Communities of Leeds and Grenville

Some “how to” user tips to navigate through the Service Coordination Guidelines slides. If you have any issues navigating through the training screens please contact: ADD CONTACT INFO in here

The  button will advance the initial slide.

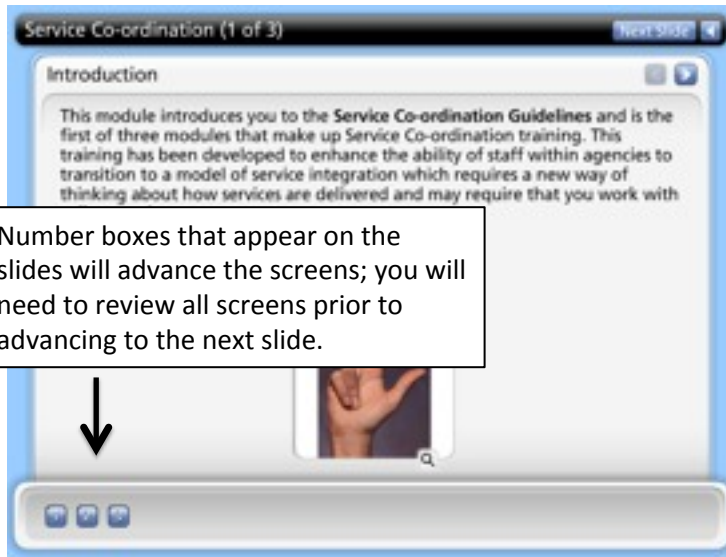

Boxes that appear on the slides will advance the screens; you will need to review all screens prior to advancing to the next slide.

The  button will advance the slides; if this is not highlighted or does not move to the next slide then you must go back and make sure that you have reviewed each slide.

The  button will activate the narration of the slides – if available.

When you have completed all screens for the single slide  will appear. This is how you advance to the next slide. If this does not appear you will have to go back through the screens (box above)

Slides that have Key Terms can be advanced by highlighting each of the key terms. It can also be advanced by clicking  in the top right hand corner. Next slide will appear when all slides have been reviewed.

service integration defines **parents as partners** with service providers and supports families as they take charge of their services

Importance of coordinating all services

Importance of all service providers

family-centered

Builds on family strengths

The importance of coordinating the involvement of all service providers

Parents

When a slide has a diagram, such as the example to the left, each area will need to be click on or use the arrow button. This will bring up the relevant information about the component/ area. If you are not able to advance slides, i.e. Next Slide does not appear you will need to click the areas again.

Let's see what you've learned...

Welcome

One final test before we complete this module on Service Coordination!

Let's see what you've learned and if you can 'beat the clock' to identify the hidden phrases in response to the questions.
